Nabina is studying in Grade 5 and is 12 years old. She lives in Marybert orphanage with her younger brother.

Nabina's father is in prison, accused and convicted of murdering his wife. Now Nabina lives in the orphanage after her grandparents were unable to support her and her brother after losing their land and money defending Nabina's father.

Nabina has just finished her First Mid-Term Examination. She scored 65%, securing eighth position in her class. She has been attending school regularly and her classes are going well but she still needs support in Mathematics.

After school, Nabina looks after her brother. She is like a mother to her brother and even bathes him as he cannot do it by himself. Nabina is very grateful to you for supporting her and sends her warm "Big Thank You" to you. She is healthy and happy staying in the orphanage.
